9. Describe the process by which the water of the ocean returns to the sources of rivers.
10. Describe the movements of the earth. Give the inclination of the earth.

Notice that the exam took FIVE HOURS to complete.

Gives the saying 'he only had an 8th grade education' a whole new meaning, doesn't it?!

Comment by Donald W: The school in Salina was probably still a Dame school (a one room school) and the teacher was employing the lost tools of learning which included the Trivium and the Quadrivium (a classical education) which by that time already being replaced in this country by the

Prussian Education system which was dedicated to making good little compliant slaves of us all. After it was fully implemented the only ones receiving a classical education were the children of the elite. Google the terms. Then, look for "The Ultimate History Lesson" on YouTube. Then, if you're still interested go to www.triviumeducation.com for more. More on the trivium can be learned about the trivium by listening to podcast episodes 49, 50, 51 and 133 at www.gnosticmedia.com or at gnostic media at the iTunes store. We need to learn how to learn. The revolution we seek begins between our ears. Other sites worthy of your attention are www.peacerevolution.org, www.tragedyandhope.com and www.schoolsucks.com
